

Free BadgeScanner™ Lead Retrieval

1. Install the free BadgeScanner lead retrieval app by ATIV Software
2. Start the app and scan the badge
3. Add a note or click the menu icon to export

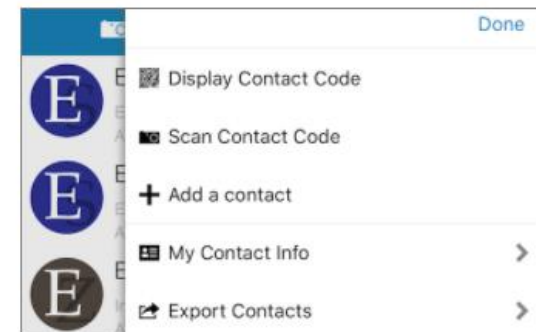

Scan QR Codes

Use the free BadgeScanner Lead Retrieval app to scan QR codes on badges. Works offline and enables lead retrieval without needing WiFi.

Add Notes

Edit or update the scanned contact information and add any missing information. Add notes to indicate the next steps to follow up.

Export Leads

Exhibitors instantly export their entire lead list in CSV format for import into their CRM system, Outlook contacts, or open with Excel.
